

Setting The Performance Standard™

2011 Federal Tax Credits for Residential Energy Efficient Equipment

Proof of Qualified Energy Property for Claiming Tax Credits for Residential Heating & Cooling Equipment

As provided for under the "Federal Tax Relief, Unemployment Insurance Reauthorization and Job Creation Act of 2010" signed into law on December 17, 2010, the U.S. Internal Revenue Service (IRS) now provides consumers with federal tax credits on home improvements including installation of certain high-efficiency heating and cooling equipment. Johnson Controls Inc. certifies that the models shown on the following pages placed in service from January 1, 2011 through December 31, 2011 in a homeowner's primary residence, meet the criteria of "Qualified Products" as set forth by Section 25C of the Internal Revenue Code.

IMPORTANT NOTICE:

Before filing for tax credits on any of the listed models, Johnson Controls Inc. recommends to homeowners/consumers to consult with a tax professional to review the provisions of Section 25C of the Internal Revenue Code. Please note that not all "ENERGY STAR" products meet the criteria for these tax credits.

MANUFACTURER:

Johnson Controls Inc., 5005 York Drive, Norman, OK 73069

EQUIPMENT CLASSIFICATIONS:

Residential HVAC equipment - Central Air Conditioners, Air Source Heat Pumps, Gas/Oil/Propane Furnaces, Furnaces with Advanced Main Air Circulating Fans

QUALIFYING MODELS:

A complete list of qualifying models may be found in the document below.

CERTIFICATION STATEMENT:

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts presented are true, correct, and complete.

Air Conditioner Systems

The Federal Tax Credit amount for 2011 on qualified air-conditioner systems listed below and on the following pages is 10% of the total installed cost of the system, up to a \$300 limit. The maximum total Federal Tax Credit for 2011 is up to \$500 based on these air conditioner systems when applied with a residential furnace that is rated at or above 95% AFUE and uses an "Advanced Main Air Circulating Fan" (AMACF) blower assembly.

Heat Pump Systems

The Federal Tax Credit amount for 2011 on qualified heat pump systems listed below and on the following pages is 10% of the total installed cost of the system, up to a \$300 limit. The maximum total Federal Tax Credit for 2011 is up to \$500 based on these heat pump systems when applied with a residential furnace that is rated at or above 95% AFUE and uses an "Advanced Main Air Circulating Fan" (AMACF) blower assembly.

Trade Name	AHRI Ref Number	Model Number	Coil Model Number	Furnace Model Number	SEER	EER	HSPF	Max Tax Credit

Natural Gas or Propane Furnaces

The Federal Tax Credit amount for qualified natural gas or propane furnaces based on meeting the 95% AFUE or higher efficiency level as listed below and on the following pages is 10% of the total installed cost of the furnace, up to a \$150 limit.

The Federal Tax Credit amount for qualified natural gas or propane furnaces based on those furnaces being equipped with an "Advanced Main Air Circulating Fan" (AMACF) blower assembly where the total electrical energy usage is equal to or less than 2% of the total energy used by the furnace as listed below and on the following pages is 10% of the total installed cost of that furnace, up to a \$50 limit.

These two Federal Tax Credits for furnaces may be added together for a total tax credit amount of up to \$200. The maximum total Federal Tax Credit for 2011 is up to \$500 based on these furnaces applied with a qualifying residential air conditioner or heat pump system.

Air Handlers or Electric Furnaces

Air handlers or electric furnaces only meet the criteria requirements for Federal Tax Credits as part of a residential Air Conditioner or Heat Pump system, and do not qualify for Federal Tax Credits on their own.
